How to Separate and Dispose Recyclable Materials

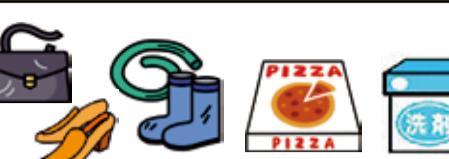

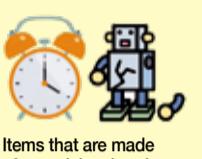

Page 1

英語版

Nakano City Waste Reduction Mascot Gominon

See page 4 for the "Waste Collection Schedule" and write your region's collection days of the week in the circle of this page.

Type	Collection location (Time)	How to separate (common waste)	Before Disposing	
Combustible Waste (2/week)	Waste Collection Sites (By 8:00 a.m.)	 <p>Items that are made of materials other than plastic (even only in part; items that are largely made of plastic or paper) Items that are made of only plastic should be disposed of as "recyclable plastics".</p>  <p>Items made of rubber/leather Bags, shoes, rain boots, hoses, etc.</p>  <p>Unclean paper with grease, smudge, or odors Used pizza boxes, boxes for laundry detergent, etc.</p>  <p>Kitchen waste</p>  <p>Paper waste</p>  <p>Paper diaper</p> <p>* Collected at the Resource Collection Locations. (Page 2)</p>	<ol style="list-style-type: none"> Place them in a container with a lid or in a transparent/semi-transparent plastic bag. Dispose at the "Waste Collection Sites." <ul style="list-style-type: none"> <input type="radio"/> Drain water from kitchen waste before disposing. <input type="radio"/> For disposing cooking oil, absorb into cloth or paper, or use a commercially available coagulant. <input type="radio"/> For sharp objects such as bamboo skewers, wrap in paper to dispose safely. <input type="radio"/> Dispose blankets, bed pads and other bedclothes as "Large-Sized Waste". <p>★Large amount of waste (Special Waste) A fee must be paid for the disposal of large amount of waste generated by pruning of trees or house moving (over five 45 liter bags or over five bundles of pruned branches disposed by a household on one collection day). Please consult the Waste Management Office in advance. Waste Management Office Tel. 03-3387-5353 (in Japanese)</p>	
Ceramics/Glass/Metal waste (2/month)	Waste Collection Sites (By 8:00 a.m.)	 <p>Items that are made of materials other than plastic (even only in part; items that are largely made of metal or are battery-operated)</p>  <p>Umbrellas (Includes folding umbrellas and umbrellas measuring more than 30 cm)</p>  <p>Fluorescent lamps, bulbs and LED lights (Place them in original cases.) Take unbroken fluorescent lamps to the Resource Collection Locations. (Page 2)</p>  <p>Small home appliances (A side length less than 30cm)</p> <p>* Some items are collected at the Resource Collection Locations. (Page 2)</p>  <p>Ceramics/Glass/Metal waste</p>  <p>Ceramic bowls, glass, pans and pots, aluminum foil, wire hanger, etc.</p> <p>Hazardous Materials</p> <p>Rechargeable products</p>  <p>Spray cans/Gas cartridges/Lighters</p>  <p>Don't make a hole on the can!</p> <p>Broken ceramics and glass, blades, etc.</p> <p>Wrap them to avoid injury</p>  <p>Mercury thermometer/sphygmomanometer</p>	<ol style="list-style-type: none"> Place them in a container with a lid or in a transparent/semi-transparent plastic bag. Dispose at the "Waste Collection Sites." <p>Be careful when disposing hazardous materials Put each of these dangerous goods in a separate bag from other garbage, and mark them out so that you can see what they are.</p> <p>In order to prevent injuries to collection workers and vehicle fires, we ask for your cooperation in sorting and notation.</p>	
Recyclable Plastics (1/week)	Waste Collection Sites (By 8:00 a.m.)	<p>Plastic containers/packaging</p> <p>Containers and Packaging with the identifying "Plastic" mark </p> <p>Containers, trays, wrappers, bottles, bags, packets, cups, caps, and cushioning wraps</p>  <p>★Uncleanable items are handled as "Combustible Waste".</p>	<p>Items made of plastic only</p> <p>Cooking utensils, gardening utensils, bathing items, writing equipment, lunch boxes and Tupperware</p>  <p>★Items made of plastic measuring over 30 cm on any side are handled as "Large-Sized Waste."</p>	<ol style="list-style-type: none"> Rinse the inside of bottles. Place them in a container with a lid or in a transparent/semi-transparent plastic bag. Dispose at the "Waste Collection Sites." <ul style="list-style-type: none"> <input type="radio"/> Rinse thoroughly so they can be recycled. <input type="radio"/> Do not double or triple bag as below.   <p>No need to peel off the stickers (indicating prices or materials) from the packaging/wraps.</p> <p>* Uncleanable items are handled as "Combustible Waste".</p> <p>* If even one part of an item is made of material other than plastic, it cannot be disposed of as "Recyclable Plastics".</p>
Used papers (1/week) Old clothes, old fabrics are also collected (except some areas)	Group Collection Sites (By 8:00 a.m.)	<p>In Nakano, old paper wastes are collected by the volunteer community groups through "Group Collection."</p>  <p>Newspapers (including the inserted advertising flyers)</p>  <p>Magazines (including books)</p>  <p>Corrugated cardboard</p>  <p>Miscellaneous paper waste</p> <p>X Paper that cannot be collected</p> <ul style="list-style-type: none"> ● Uncleanable paper <ul style="list-style-type: none"> - used pizza boxes - boxes for laundry detergent or soaps, etc. <p>→ Handle them as "Combustible waste"</p> ● Processed paper <ul style="list-style-type: none"> - thermal paper (receipts, etc.) - coated paper (containers of yogurt, ice cream) etc. <p>*Please put old clothes and old fabrics out on a day that rain is not in the forecast all day.</p> <p>Old clothes, Old fabrics</p> <p>*Take out futon mattresses, comforters, bed pads, etc. as "Large-Sized Waste".</p>	<ol style="list-style-type: none"> Separate by type of paper: newspaper, magazine (miscellaneous paper) and cardboard. Tie them with cords (plastic string is acceptable). Put old clothes and old fabrics in plastic bags. Dispose them at the "Group Collection sites". <p>* Contact the Garbage ZERO Promotion Section. If you cannot find the Resource Recovery locations Call 03-3228-5555 (in Japanese)</p>  <p>You will see orange-colored banner at the collection sites. (They may not be placed on some days due to circumstances.)</p> <p>★Miscellaneous paper waste must be inserted between magazines or in paper bags.</p>	
Bottles/Cans/PET bottles (1/week)	Bottles/Cans/PET bottles Collection Sites (By 8:00 a.m.)	<p>Bottles</p> <p>Glass bottles used for food or beverages (except cups)</p>  <p>*Remove caps and labels from PET bottles → Dispose as "Recyclable Plastics".</p> <p>Colorless PET bottles (with the identifying mark of the upper left) Used for food or beverages</p> <p>X Items that are not collected</p> <ul style="list-style-type: none"> ● Items used for others than food and beverages (pharmaceuticals, cosmetics, gas canister cartridges, etc.), spray cans and others ● Dirty items such as 18-liter-cans (18-liter-cans), colored PET bottles, etc. <p>→ Dispose glass bottles and cans as "Ceramic, Glass, Metal Waste" → Dispose PET bottles as "Combustible waste"</p>	<ol style="list-style-type: none"> Rinse the inside of bottles. Dispose them at the "Bottles/Cans/PET bottles Collection Sites". <ul style="list-style-type: none"> <input type="radio"/> Place bottles in yellow bins, cans in blue bins, PET bottles in collection nets. Crush PET bottles before discarding. <p>* Don't leave them in the garbage bag</p> <p>The Collection Container will be placed in the evening preceding the day of collection. Please put them quietly so that you don't disturb the surrounding people and take back your garbage bags with you.</p> <p>For PET Bottles, "PET Bottle Automatic Collection Machine" near you is the preferred method of recycling.(See page 2 for details)</p>  	

★Collections are carried out on public holidays. The schedule for Year-end and New-year holidays will be announced through the city's website, "Nakano City Newsletter" or "Waste Sorting App".

Large-Sized Waste (fee-based service)

Advance-application required

Household generated waste including furniture and home appliances with a side length over 30cm

Large-Sized Waste Reception Center (Mon.-Sat., 8:00 a.m.-7:00 p.m.)

Tel. 03-5715-2255

*Applications are also accepted at the Nakano City website. See also page 4.

Published: April 2025

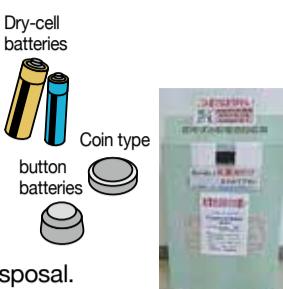

Recyclable Waste Collection at Resource Recovery Locations

Waste from businesses are not accepted

Note: The shape of the City Office collection box will be different.

Battery Collection Box

Collection items Dry-cell batteries (alkaline · manganese), lithium primary batteries (Coin type model numbers "CR", "BR", etc.), button-cell batteries
Box locations Public facilities in the city such as City Office, Community Center, Central Library, Gymnasium, Recycling Exhibition Hall, etc.

Caution

- Insulate button-cell batteries with cello tape or the like before disposal.
- Collection is also conducted by cooperating stores such as electronics stores.

Small Rechargeable Battery Collection Box

Collection items Mobile batteries, battery packs, etc.

Box locations City Office, Recycling Exhibition Hall

Caution

- Insulate with cello tape or the like before disposal.
- Items with the recycling mark are also collected at cooperating stores such as electronics stores and supermarkets.

Used Small Household Electric Appliances Collection Box

Collection items Unwanted small household electric appliances (the following nine items) derived from home

- mobile phone (including PHS & smart phone)
- hand-held game machine
- portable car navigation
- AC adapter & codes
- portable music player
- digital camera
- electronic dictionary
- desk-top calculator
- * Items that do not fit in the collection box (30 cm x 15 cm) are not accepted.

Box locations

City Office, Community Center, Central Library and Recycling Exhibition Hall

Caution

- Please eliminate personal information recorded on a mobile phone.
- Please remove storage media (SD card, etc.) and battery.
- Items dropped into the Resource Collection Box will not be returned.

Used Fluorescent Lamps and Bulbs Collection Box

Collection items

Straight tube fluorescent lamps (120cm or shorter), circle tube fluorescent lamps or bulb-type fluorescent lamps from households.

Box locations

City Office, Community Center, Central Library or Recycling Exhibition Hall

Caution

- To prevent being broken, place them in original wrapping or empty cases, or wrap them with newspapers, etc.
- Items other than fluorescent lamps and bulbs such as incandescent light bulbs, LED bulbs, etc. and broken lamps and bulbs can not be collected with this collection box. Dispose them on the collection day of "Ceramics/Glass/Metal Waste".

Items NOT Collected by Nakano City

PC

Please dispose of it in one of the following ways:

- Pick-up from home by courier services (By the cooperation of the city's partner, **Renet Japan Recycle, Inc.**, the collection of 1 box of disposing items which includes PC itself is free of charge.)
 Apply through their website (<https://www.renet.jp.jp/>).
- Collection by manufacturers, etc. (collection and recycling based on the Law for Promotion of Effective Utilization of Resources)
 A collection/recycling fee will be charged for disposal. (Home-use PCs with the "PC recycling mark" can be disposed of without paying a collection/recycling fee.)
 Inquire contact information of each manufacturer, collection method, fees, etc. to "**PC 3R Promotion Association, Phone: 03-5282-7685**".

Air-conditioner, TV, Refrigerator · Freezer, Washer · Cloth drier

There is a recycling and transportation charge for disposal. According to the Home Electric Appliances Recycling Law, manufacturers do collection and recycling home appliances (including foreign, used or mail-order products). Please contact the store you purchased (or had it replaced). If you are not sure, please call the **Home Appliances Recycle Reception Center, TEL: (0570)087200** (Navi Dial) to pick it up.

Difficult-to-Process or Hazardous Items

Flammable, harmful, or hazardous items are NOT collected by Nakano City.
Please inquire with the store where the item was purchased or the manufacturer.

Example Gas canister · Motor vehicle battery · Industrial chemical · Match
 Fireworks · Kerosene · Gasoline · Paint · Motor vehicle · Motorcycle · Motor vehicle tire · Fire extinguisher · Piano · Fire resistant safe · Cement materials · Rocks or Soil

PET Bottle Automatic Collection Machine

☆Eligible to earning reward points

In order to efficiently collect colorless PET bottles recyclables derived from households, they are installed at supermarkets in the city (Dispose colored PET bottles as "Combustible waste" since this machine cannot process them). Remove caps and labels, and rinse the inside at home before bringing them. Put PET bottles into the machine without crushing them.

Compression reduce the volume, and CO₂ (carbon dioxide) emitted during collection and transportation. When you use this machine, you can collect reward points that can be exchanged for "shopping coupons".

Installed location As of April 2025 *

*Check the City's website for the latest information.

- OK/Saginomiya Branch, Nakasugi Branch
- Santoku/Shin-Nakano Branch
- Life/Higashi-Nakano Branch, Nakano-Station Branch, Nakano-Arai Branch
- Peacock/Toritsu-kasei Store
- Maruetsu/Toritsu-kasei Station Branch, Nakano-wakamiya Branch
- Kitchen Court/Higashi-Nakano Branch
- Maruetsu Petit/Yamatocho Branch, Nakano-chuo Branch
- Co-op/Nakano-Chuo Branch, Nakano-Saginomiya Branch
- Recycling Exhibition Hall

* The machine is also installed by private companies at locations such as Summit and 7-Eleven.

Old Clothes/Old Fabrics

They are collected as resources with the Group Collection (except some area). Also, you can bring them into the Recycling Exhibition Hall (1-6-3 Matsugaoka / refer Contact Information on Page 4) during operation hours.

Collection items

clothes, underwear, socks, towels, curtains (except blackout curtains, lace sheer curtains) etc.

Caution

- Put washed and dried items in a plastic bag.
- Do not remove zippers or buttons.
- Items stuffed with cotton, and masks cannot be collected. Dispose them as "Combustible Waste".

* Wet items cannot be recycled. For Group Collection, please put items out on a day that rain is not in the forecast all day.

Cooking Oil

Collection items Cooking vegetable oil (tempra oil, vegetable oil, olive oil, corn oil, etc.) which derive from household.

* Oil which was used several times and became dark brownish or was unopened but past a best-before-date is also collected.

Resource recovery locations Environment Section at **City Office 8F, Reception of Recycling Exhibition Hall**

* In addition to the above, they are collected at Community Center between 9 am to noon on the forth Tuesday every month (if the forth Tuesday falls on a holiday, the following business day)

Caution

- Eliminate the dregs as much as possible and put oils in PET bottles, be sure to shut a lid on it, and take it to the Resource Collection Locations. (For unused oil bottles, bring in original bottles).
- Please do not use glass bottles as they are easy to be broken.

Business Waste and Recyclables (fee-based service)

Business owners are responsible for the disposal of recyclables and waste derived from business operation such as offices or stores. The waste management must be conducted by the business (by contracting waste disposal companies, recycling businesses, etc.).

When using Nakano City's collection

Under the City's regulation, businesses are required to submit a form when requesting the City to collect waste. Businesses with no more than 20 employees or businesses that generate less than 50 kg of waste a day on average may fill out the **Business Waste Generation Form** and dispose their waste at the City's collection sites. **They must attach Waste Management Tickets** to all waste. These tickets are available for purchase at convenience stores and stores with "Nakano City Waste Management Tickets are available" sign or at Nakano Waste Management Office.

Inquiries:

For inquiries regarding a business waste generation form, contact the Garbage ZERO Promotion Section.

For inquiries regarding Nakano Waste Management Tickets for business waste, contact the Nakano Waste Management Office.

Items to remember when requesting Nakano City collection

The city will issue a "Notification Certificate" to the business owners who submitted the notification and inform them of the "Business Owner Number".

Please write that number and "business name" (company name, shop name, etc.) on the Waste Management Ticket and attach it to the waste. Waste that does not have a proper Waste Management Ticket cannot be collected. If you live in the same place as the store (business office), please separate the store waste and household waste and put them out in separate bags.

If using a waste bin

Attach a Waste Management Ticket adequate for the amount of waste contained inside. Place the ticket inside the container on the item on the very top of the waste, or if you have kitchen scraps and cannot attach the ticket, attach the ticket on a piece of paper and place it on the very top of the waste.

If using a waste bag

Attach an adequate Waste Management Ticket for the size of the waste bag and attach it to a place that can be easily seen. For example, even if the waste bag is only half-full, please attach a ticket adequate for the size of the bag.

Items difficult to fit in a waste bag

Foamed polystyrene (Dispose as **Recyclable Plastics**)

One 10-liter-ticket per one item

18-liter cans (Dispose as **"Ceramic/Glass/Metal"**)

One 10-liter-ticket per one item

Bottles, cans, and PET bottles

~Try to use the private collection routes~

If you wish to use the Nakano City Collection, label the waste bag with the name/type of the contents, apply an adequate Waste Management Ticket, and place them at the collection points.

*Business-generated Used Papers are not collected by the community group collections. Please dispose them by asking recyclables collection contractors for collection or taking them to used paper wholesalers.

WHAT TYPE OF WASTE IS IT?

Plastic Shopping Bag			●		

Please use the scale as a guide for "30cm".

Notes

- If rechargeable products, spray cans, gas canisters, lighters, etc. are disposed together with other garbages, it may cause a fire in waste collection vehicles or waste processing facilities. Put it in a bag separate from other garbage, and indicate what the contents are. Do not make holes in spray cans and gas canisters.
- Cutlery and broken bottles are dangerous. Wrap it in paper or cloth, put it in a bag separate from other garbage, and indicate what the contents are.
- Mercury-containing products cannot be land filled, so they will be treated separately. Put it in a bag separate from other garbage, and indicate what the contents are.
- Even if an item is made entirely of plastic, if it is uncleanable, it is handled as "Combustible Waste". If even one part of an item is made of material other than plastic, it cannot be disposed of as "Recyclable Plastics".

Days of Recyclable Waste·Waste Collection

★ For used paper, you can check it in the insert leaflet "List of Group Collection (used paper collection, etc.) implementation dates".

★ After checking your regions' wastes/recyclables collection days, please write down the day of week on each blank "○" on Page 1.

"the first · the third ○" → the first and the third of ○ day of week in the month
 "the second · the forth ○" → the second and the forth of ○ day of week in the month

* There is no wastes/recyclables collections on the fifth week.

To prevent waste from spilling and scattering,
please cooperate in the following manner when disposing of waste:

⚠ There are frequent accidents of spilling and scattering of contents on passersby and neighboring houses when bags containing liquid tear when they are piled onto collection trucks.

● Liquids cannot be collected as waste.
When disposing of liquids, please absorb the liquid with paper or cloth, or solidify it with a solidifying agent, and dispose of it on the collection day for "combustible waste".

● If you wish to dispose of items with contents that might spill or scatter, such as down or microbeads cushions, as "combustible waste", place the items in a separate bag and write the contents on the bag before disposal.

⚠ Caution with inclement weather (typhoon approaching, snowfall, etc.)

◆ Depending on the conditions of strong winds, flooding, and snowfall, the collection time may be significantly delayed, and waste collection and placement of bottles, cans, and PET bottle's collection bins may be canceled.
 ◆ We kindly ask for your cooperation in putting wastes out on the next collection day as much as possible.

⚠ Be sure to follow the sorting and emission rules even in the event of a disaster

◆ Even if a large amount of garbage is generated due to cleaning up the damaged house, it is important to thoroughly sort it. Spoilage items and items need to be controlled for hygiene are highly prioritize for collection. Please check the latest information before taking out the garbage.
